Featured Speakers

Prof Keith Carter 

Keith Carter is an Associate Professor at the National University of Singapore (NUS) School of Computing, Department of Information Systems and Analytics. He is Director of the NUS Ripple FinTech Lab an experiential education lab and Co-Director of the Crystal Centre a deep-tech FinTech thinktank of cryptocurrency, security, technology and algorithms. He also teaches business leaders in the Advanced Computing for Executives and the Lee Kuan Yew School of Public Policy. He is a member of the Singapore CyberSecurity Consortium and member of the NUS AI Lab.

He is the author of Amazon Bestseller "Actionable Intelligence: A guide to delivering Business Results with Big Data, Fast!" Wiley, New York 2014. Reached top 100 books in Amazon and Top 3 books for Competitive Intelligence by Cipher Systems.

He is a contributing author to the book "Leading with IT: Lessons from Singapore's First CIO" by Professor Alex Siow published by Wiley 2021.

He has an MBA from Cornell University and a Bachelor's in Electrical and Computer Systems Engineering from Rensselaer Polytechnic Institute. Before joining NUS, he worked at Estee Lauder and Accenture. His mission is to help businesses, governments and people succeed with actionable intelligence.

Ashok Venkateswaran 

Senior Technology Leader with over 15 years of experience over a broad spectrum of technology engagements in both client facing and internal environments. Proven results delivering IT Strategy, Data Optimization and Business Intelligence for year over year cost containment and reduction while raising operational excellence. Managed multiple client engagements across the Banking, Financial Services and Insurance verticals

Chia Hock Lai 

Chia Hock Lai is the CEO of Switchnovate and Senior Blockchain Advisor of Tembusu Partners. He has close to 2 decades of experience in the financial and technology industry and previously worked in organisations like the Government Technology Agency of Singapore (GovTech) and NTUC Income. He is also an alumnus of the National University of Singapore (NUS) and Nanyang Technological University (NTU).

Besides being the founding president of the Singapore FinTech Association, a board member of the Global Fintech Institute and co-chairman of the Blockchain Association Singapore, he is also a Strategic Advisory Council member of the ASEAN Financial Innovation Network (AFIN), Advisory Board member of the IEEE Computer Society Blockchain and Distributed Ledger Standards Committee (IEEE C/BDL), Council Member of Singapore Sichuan Trade & Investment Committee, Member of the Financial Sub-Committee Advisory Group (CAG) of the China-Singapore (Chongqing) Demonstration Initiative on Strategic Connectivity (CCI), Fellow of the Singapore University of Social Science (SUSS), member of the Institute of Banking and Finance (IBF) - Technology & Operations Industry Workgroup, member of the Banking & Finance and Fund Industry panel of Nanyang Polytechnic (NYP) and advisor to start-ups. He also teaches and speaks frequently on topics related to FinTech and Blockchain at international events and universities.

Under his leadership, the Singapore FinTech Association (SFA) has grown its membership base to more than

800 corporate members, with an extensive international partnership network in over 40 countries. NTUC conferred the prestigious "Partner of Labour Movement" award to SFA and him in 2018 and 2019 respectively, in recognition of their work in helping workers to re-skill and up-skill into FinTech. In January 2019, SFA made history by becoming the first NTUC U Associates to become an affiliated association of NTUC. In addition, he was amongst the LinkedIn Power Profiles for Finance in 2018, for his active contribution as a key opinion leader in the professional FinTech and Blockchain community.

Hock Lai is passionate about how technology is transforming the way financial services are being delivered to consumers and businesses, and in the process making the financial system more efficient and inclusive.
