

ABOUT US

MISSION & VISION

PROMOTING THE HIGHEST STANDARDS OF EDUCATION AND PROFESSIONAL EXCELLENCE FOR THE ULTIMATE BENEFIT OF INDUSTRY AND SOCIETY, BY LEADING THE BLOCKCHAIN, CRYPTO & WEB3 PROFESSION GLOBALLY.

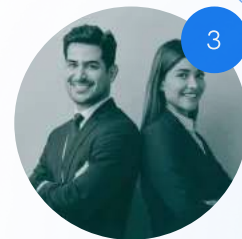

BLOCKCHAIN, CRYPTO & WEB3 PROFESSION

We believe that high-quality professionals contribute significantly to industry advancement and sustainable functioning. DEC Institute's mission is to provide value to this profession through a platform for knowledge distribution and certification and by engaging with the industry to advance the newest developments, expertise and professional standards of practice.

STANDARD OF EDUCATION

The blockchain, crypto, and Web3 industries are not easily accessible and move much quicker than educational developments. To deliver the highest standard of excellence and education, universities, research centres and educators require access to a holistic and up-to-date platform of learning resources, syllabi and examinations developed by DEC members and its professional community.

PROFESSIONAL EXCELLENCE

DEC Institute consolidates the industry's cutting-edge thought leadership to support continued professional excellence to its members and charterholders. Expanding the suite of educational and certification products will support its members to deliver high-quality education, new workplace dynamics and professional development for talent entering the market.

BENEFIT TO INDUSTRY & SOCIETY

The industry lacks trust and confidence, driven by the unprofessional behaviour of greedy and opportunistic individuals.

Professional standards and cross-functional knowledge sharing are essential to allow the industry to deliver positive outcomes for society. DEC aspires to foster the development of professionals that serve the public interests.

* DEC CHARTDERHOLDER & DIRECTORY

Learn more about our chartered professionals, their benefits of pertaining to a professional body, and use the DEC Institute charterholder directory to quickly verify an individual's active DEC charterholder status.

* CODE OF CONDUCT & ETHICS

At DEC Institute, we believe that a fair, ethical, inclusive, and accessible society and industry are paramount. Our 5 key principles are the bedrock of this commitment, guiding our actions and initiatives to ensure the responsible and equitable application of decentralized technology. In pursuit of professionalism and industry best practices, all members and charterholders are expected to adhere to our self-regulatory Code of Conduct & Ethics.

This Code encapsulates our dedication to the highest standards of ethics, integrity, and responsible engagement within the industry. Members and charterholders are required to comply with these principles and guidelines in all aspects of their professional conduct, regardless of their specific area of business or expertise.

* GOVERNANCE

The DEC Institute, an internationally registered brand, has a dual organisational structure. It comprises the DEC Association, incorporated in the Kanton of Zug in Switzerland, a shareholder of DEC Education Services AG, and represented by its board and academic and industry members. The DEC Association defines the global knowledge standard and rules of the code of conduct and ethics, and delivers the benefits for active member organizations. The DEC Education Services AG, also incorporated in the Kanton of Zug in Switzerland, has the mandate from the Association's board to commercially build, distribute and scale the DEC charter programmes in alignment with the Association's interest. We believe a philosophy of candour and transparency is key to facilitating a relationship of trust with our constituents and the public. If you have any questions or want more information, please email our Corporate Secretary at governance@decinstitute.org.

JOIN US

DEC ASSOCIATION

The DEC Association embraces the industry's ethos of decentralisation and being open source and inclusive. Its main purpose is to define the global knowledge standard for its professional qualifications and to foster international collaboration in research & development, in conjunction with its active academic and industry members.

YEARLY ACTIVITIES

DEC's active members meet each quarter for an online AMM (Active Member Meeting) where academia and industry leaders discuss and define topics such as:

- Status and candidate feedback of the CBA® and CDAA® programme
- Yearly syllabus updates and amendments to the programme
- Submission of learning resources and study material by its members
- Collaboration on education initiatives on DEC Institute's MOOC platform
- Collaboration on research & development initiatives across members
- Event participation, sponsorships and networking across members

* ACADEMIC MEMBERS

Who co-developed CBA® and CDAA®?

NUS NATIONAL UNIVERSITY OF SINGAPORE – FINTECH LAB SCHOOL OF COMPUTING

NUS stands among the world's leading universities today. Thanks to the NUS FinTech Labs, NUS is being ranked as the 2nd best Blockchain University in the world in 2022 according to Coindesk, achieving significant milestones in the knowledge of financial technology, providing financial literacy to over 1 million individuals in partnership with MAS through the SFF Talent Pavilion and upskilling more than 50,000 individuals in FinTech through programs like the SG United FinTech program and the NUS SG FinTech program. NUS Fintech Lab collaborates with more than 60 industry partners who actively contribute to their thought leadership, innovation, and education initiatives. NUS has multiple student-led crypto clubs and offers pupils the opportunity to work with its many partners in the blockchain space.

* INDUSTRY MEMBERS

Who co-developed CBA® and CDAA®?

WEB3 FOUNDATION, ZUG, SWITZERLAND

The inception of the Web3 Foundation in 2016 was driven by the goal of fostering and overseeing advancements in decentralized web software protocols. Web 3.0 Foundation's mission is to nurture cutting-edge applications for decentralized web software protocols. It aims to deliver a decentralized and fair internet where users control their own data, identity and destiny. The foundation supports Web 3.0 teams and open-source projects through funding, advocacy, research and collaborations. Polkadot, Web3 Foundation's flagship protocol, is a scalable sharded chain and protocol that provides a secure environment for cross-chain composability.

* GLOBAL CHAPTERS

Four vibrant DEC Chapters around the world serve to expand your professional networks, keep you on top of industry developments, and assist in your international career pursuits. DEC members may elect to receive event information and notice of chapter activities in their DEC dashboard.

* JOBS AT DEC

Want to join our team? Apply now!

Join our international and remote team if you like to work in a flexible and stimulating environment in close connection with leading academic and industry experts.

[CONTACT US](#)

HOW TO APPLY

Tell us your profession, strengths and interests, and we will check whether we can offer you a position or collaborate in any way.

If you are an expert in the field of Blockchain, Digital & Crypto Assets or Web3, you can also apply as a Research Fellow to contribute to DEC's mission and access our network.

Please send your application, CV and other helpful documents/links to jobs@decinstitute.org!

HELP & FAQ

* RESEARCH & DEVELOPMENT

The DEC Association serves as a global and decentralized hub for premier universities, to find and engage with like-minded researchers and professors, to collaborate on research initiatives and lecturing programs, as well as to facilitate introductions to the industry and the wider public. Activities provided to its members involve both the regular screening of research grants and funding opportunities, as well as the support for coordinating and promoting international and collaborative research programs across members and the public.
